TO: Acute Care Hospitals
RE: Expanded Care Capacity at Sub-Acute Sites for COVID-19 Patients

A. Overview

As part of its efforts to expand existing health care capacity to serve individuals infected with COVID-19, the Commonwealth is issuing this list to assist acute care hospitals to identify nearby facilities that are accepting COVID-19 patients for sub-acute levels of care. A number of chronic disease and rehabilitation hospitals (CDRHs) have confirmed the availability of dedicated and isolated space to provide services, including respiratory support as needed, to COVID-19 patients. This list is intended only to offer guidance and serve as a reference for the provider community, and does not contain any requirements for care providers, issue updates to current MassHealth service rates, or endorse specific institutions or referral relationships. As this is a reference document, acute hospital providers should contact CDRH providers to confirm the availability of beds after April 7, 2020.

Non-Acute Hospitals with Dedicated COVID-19 Capacity

The following CDRHs have identified beds available to serve COVID-19 patients:

Provider Name	# Beds Available	Contact Information	Address	Region
Curahealth Hospital Stoughton	12	(781)297-8206	909 Sumner St, Stoughton, MA 02072	Southeast
Hebrew Rehabilitation	24	(617)363-8372	1200 Centre St, Roslindale, MA 02131	Greater Boston
New England Sinai/Carney Hospital	Upon request	(781)297-1242	150 York St, Stoughton, MA 02072	Southeast
Spaulding Hospital Cambridge	48	(617)349-5800	1575 Cambridge St, Cambridge, MA 02138	Greater Boston
Whittier Hospital Westborough	Upon request	(508) 870-2222	150 Flanders Rd, Westborough, MA 01581	Metro West

B. Hospital Coordination Expectations.

Facilities are expected to continue usual protocols concerning transfers of patients.
